Self-directed IT Professional with training and experience in full-stack web development, web-hosted application development, and systems integration.

Technical Skills

- Languages - *JavaScript, PHP, SQL, Python. HTML5, CSS3, git*
- Frameworks - *React.js, node.js, Flask* for Python
- Databases - Proficient with relational databases, primarily SQL-based
- Platforms - *WordPress, HubSpot, AWS, GitHub, GitHub Copilot, Tickets.com API compliance*

Work Experience

04.2023 - 03.2026: Web Developer at World Racing Group

- Developed an integration to synchronize rewards program data between HubSpot CRM and Tickets.com in Python with a Flask backend, hosted on Amazon EC2.
- Developed a React and Next.js web application to submit, manage, and track travel requests and travel-related database information for the Travel Coordinator team.
- Used PHP, HTML5, CSS3, and JavaScript in maintaining large WordPress sites on the front and back end, including worldofoutlaws.com and dirtcar.com, as well as sites for specific racing series and events.
- Used PHP without frameworks to create and update custom plugins, themes, and tools for use across multiple WordPress sites, including Multisite environments.
- Used MySQL to update and maintain the corporate database, both adding data and assisting the Database Administrator in creating/refactoring schemas to reflect modernization and new functionality.
- Expertise in the HubSpot Customer Resource Management (CRM) tool for the purposes of fan engagement and communications, building page and email templates as well as integrations with our other tools and data sources.

04.2020 – 06.2021: Junior Developer at Bare Metal Research

- Created a full-stack web application allowing users to purchase and register the company's product using PHP and MySQL, connected to an Azure API and PayPal.
- Created a WordPress website for the social and training aspects of the company's services.

05.2018 – 04.2021: Barista at Starbucks

2014 – 2016: Library Assistant at Appalachian State University

Certification in HubSpot Development (I) – 2024
